SINCE 2004

Company Profile

Orbita is a reputable hospitality products manufacturer with ISO certified 46,000 square meters garden factory, established to offer the best quality products with professional and effective service to our customers.

Orbita series of products including hotel card locking system, hotel in room safe , hotel minibar, touch screen switch, hotel in room telephone, cabinet locker, smart hotel room system and other hotel in room accessories , are products of years of experience integrated with advanced technologies from Siemens , Dallas, Atmel, Philips etc. Orbita locking system certified by Opera Fidelio and other popular PMS system, has just enabled Orbita products to a wide range of compatibility.

In fact, all of ORBITA products are CE, FCC, RoHS marked and ORBITA is one of the few brands in this industry that passed 800,000 times BHMA standard circling test. Regional standard like SASO, SONCAP, SIRIM are also available with all Orbita products.

More than 20,000 hotels, service apartments, resorts, university dormitories, hospitals and cruise ships covering 120 countries in the world are using Orbita card locks, digital safes, minibars, touch screen switches and other satisfactory hotel intelligent accessories. Our customers include most popular international hotel management groups such as Accor, Marriot, Carlson, Hilton, Starwood, Intercontinental, Kempinski, Crow Regency and other regional hotel management groups. Moreover, Orbita is also offering OEM & ODM services for many leading Europe and American brands in this industry.

ORBITA believes that every customer is a customer for life, manufacturing products of fine quality with our experience and knowledge is our source of pride and customer's satisfaction is our only criterion in service.

Company Development

2004.11.08
SHENZHEN Orbita Established

2005
Signed strategic cooperation agreement with AL Muhaidib and entered Middle East market

2006
Products passed CE,FCC

2007
Export value exceeded 2 million US dollars

2008
Adapted ERP to better management

2009
Product passed En 14846 European standard certification and 200,000 times circling test

2010
Factory adapted ISO9001/2008 and established ORBITA Thailand

2011
ORBITA lock software interfaced with Fidelio Opera PMS system

2012
Hotel references exceeded 5000 projects,ORBITA become top 3 Chinese brands in international market

2013
Established ORBITA Vietnam, ORBITA Brazil

2014
Established 46,000 square meter garden factory Invested Huizhou ORBITA Science & Technology park.Created the biggest smart lock production capacity in China

2015
Established DUBAI office,Cambodia office

2016
Established China domestic team and entered domestic market

2017
Entered IHG vendor List ,Signed strategic; agreement with Vienna. Granted China Hi-Tech Enterprise

2018
New smart fingerprint lock series released

2019
Signed strategic cooperation agreement with Wyndham Group and Shanghai Mehood Hotel Group

2020
ORBITA enrolled as China Hi-tech Enterprise

CERTIFICATES

ORBITA SMART HOTEL SYSTEM

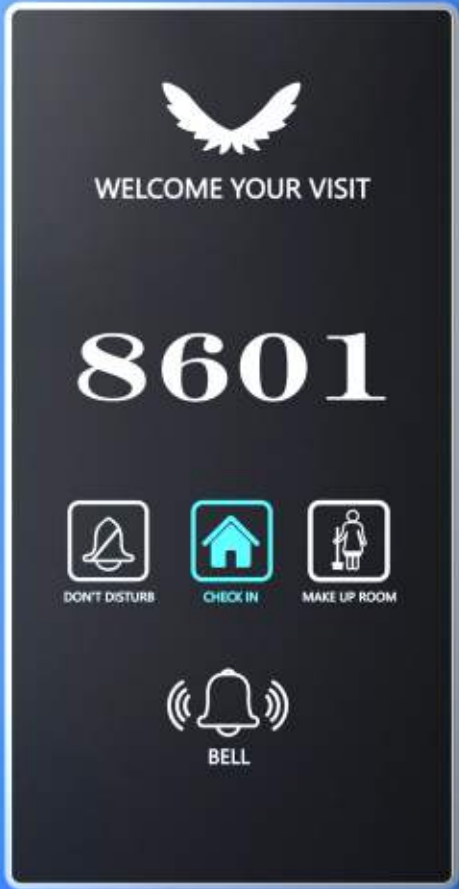

ORBITA SMART HOTEL SYSTEM

Delivers a one-stop smart hotel total solution to you

We are committed to providing you with high quality products and services

Serving over 20,000 hotels in more than 120 countries around the world

PRODUCTS AND SERVICES

Hotel room control systems, customized door plates and switches, hotel locks, hotel room minibar, safes, etc.

Features of the ORBITA Smart Hotel System

ORBITA smart hotel solutions leverage the power of the IoT, cloud computing, AI and other new-gen information technologies to achieve the smart hotel operations through the automatic sensing and detection of equipment and data transmission and calculation.

ORBITA provides guests with smart products that are energy-saving, safe, convenient and comfortable, so that guests can experience the surprises and warmth brought by smart products and services. Satisfying user experience and word-of-mouth can greatly boost your hotel's occupancy rate and brand awareness.

01/ Smart Hotels

Online room selection, online payment, one-tap navigation, 24-hour service, one-tap unlocking, smart control, no-deposit check-out;

03/ HVAC management

The HVAC air-conditioning and energy-saving system offers precise programming control of third-party central air conditioning fan coils and solenoid valves to achieve automatic control of room temperature and high energy efficiency. Control modes: remote, local, automatic, and linkage control. Management modes: for-rent, rented, off-rent, for-night, etc.

02/ Room services

Please Clean Up, Please Do Not Disturb, Check-out Appointment, Laundry Service, SOS Emergency Call, Networked Door Lock;

04/ Smart Hardware

The control of power supply for lights, air conditioners, curtains and other equipment can be integrated via the wireless smart devices, which can collect power consumption data of the equipment at the same time.

Advantages of ORBITA Smart Hotel Systems

With all-scenario smart hotel products, ORBITA aims to provide customers with the most comprehensive and complete smart hotel total solution. We will keep rolling out better and smarter products to meet the ever-rising standards of our customers.

ORBITA smart hotel systems overcomes the constraints of traditional single-channel booking by broadening the range of booking channels to realize remote booking on portable devices, which brings ease of operation, multiple choice, and increased occupancy rate.

ORBITA boasts strong backstage management and remote supervision capabilities to improve hotel management and service quality, letting guests feel at home and enjoy efficient, humanized and innovative hotel services. ORBITA effectively saves human resources and labor costs; precise and smart control effectively reduces energy consumption, so that your hotel goes up in profits and down in costs.

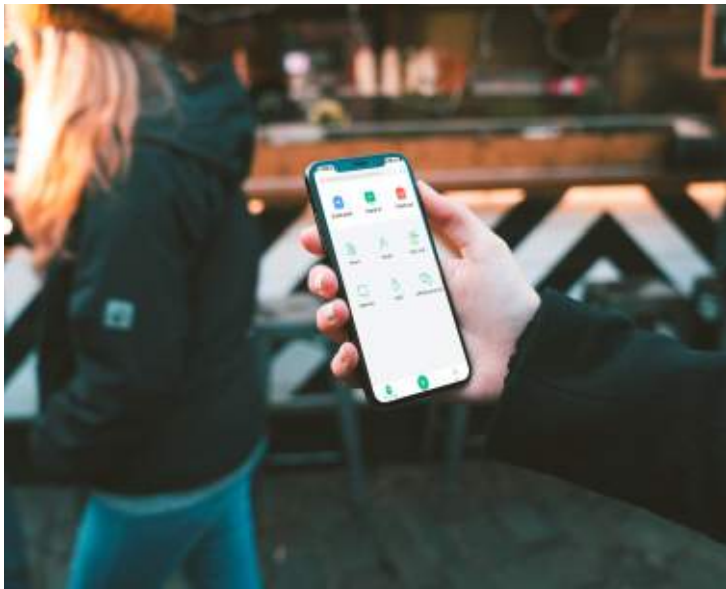

All-Scenario Smart Products

ORBITA smart hotel solutions provide all-scenario smart products including lighting system, environment system, audio and video system, etc., to make customers happy with a smart and relaxing experience. Our products can be used in lobbies, corridors, hotel rooms, restrooms, spas, etc., and can integrate thirdparty smart devices to bring unlimited possibilities for customers.

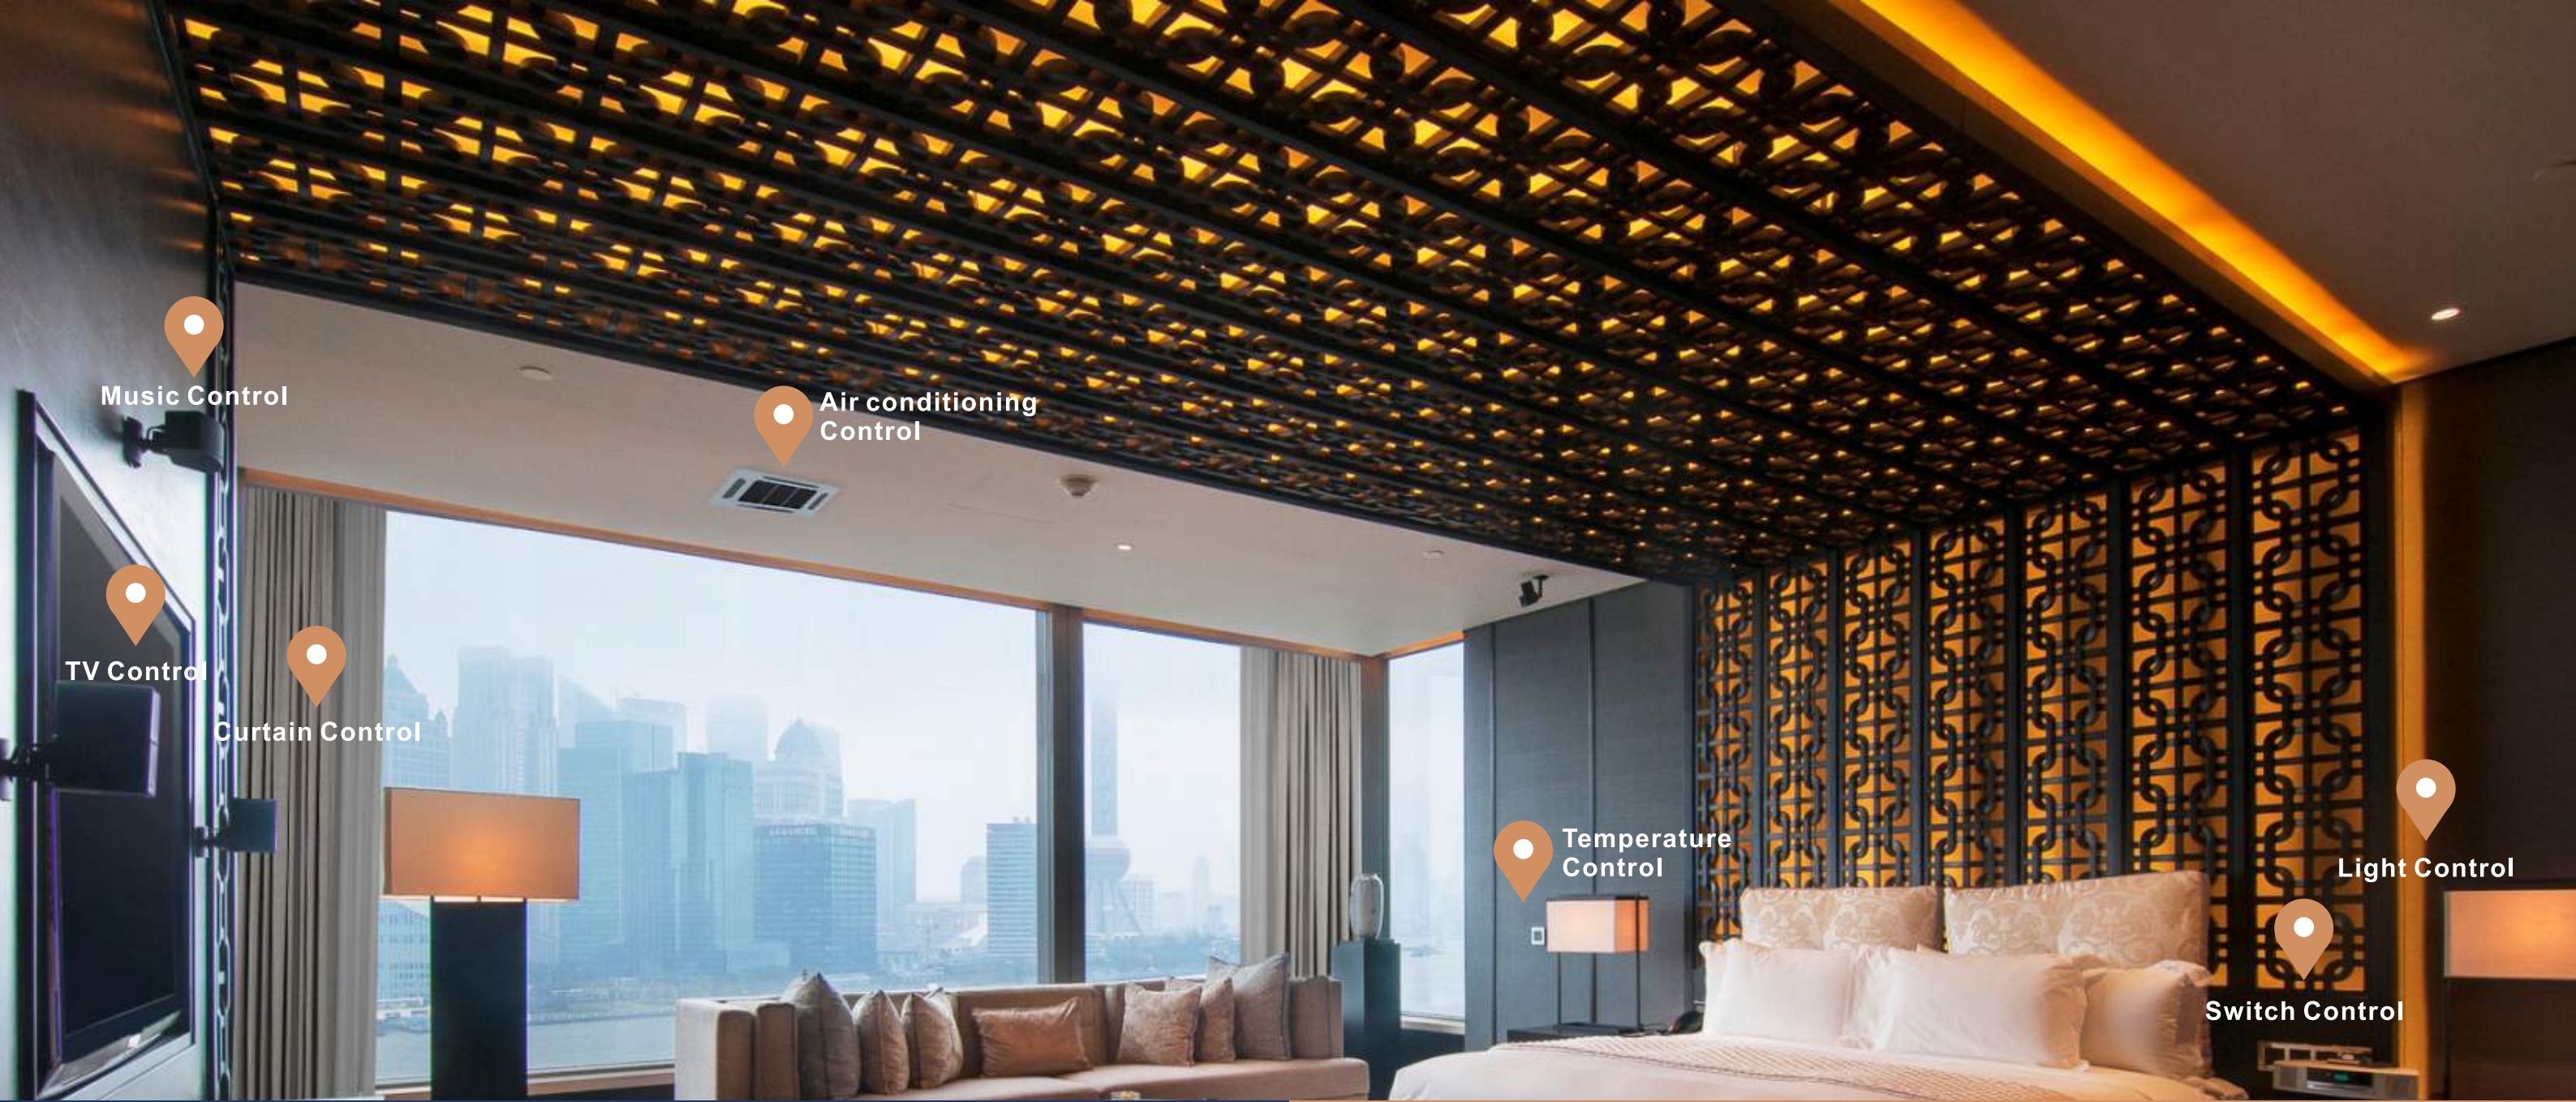

Low-Cost Deployment

With our pioneering wireless IoT technology, there is no need to drill walls for wiring; installation is quick and maintenance easy. Costs are saved not only in the initial preparation and construction, but also in later renovations of the hotel. Wireless technology also allows a high degree of scalability and can easily accommodate more smart devices in the future to keep the hotel's smart operations up to date.

Mobile App Features

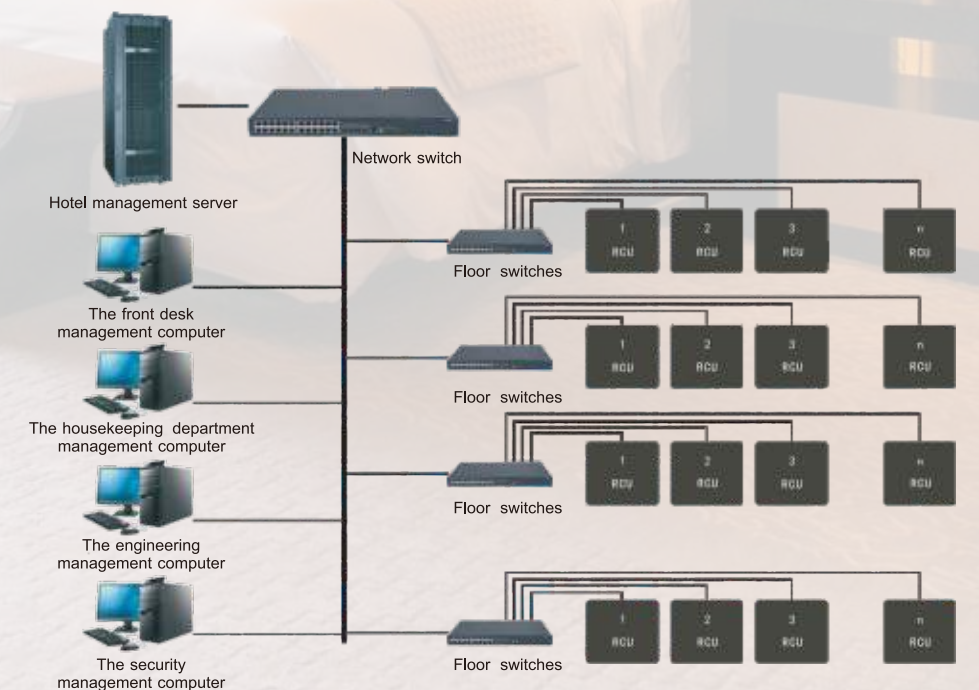

The mobile app opens up a whole new user experience for hotel guests. Depending on the different solutions adopted, guests can handily book and reserve hotel rooms on their mobile phones or other mobile devices. They can also check in and check out on mobile devices such as phones. No more waiting in a queue for check-in and check-out. When guests arrive at the hotel, they can go directly to their reserved rooms and use their mobile phones' electronic keys to unlock the doors. Queueing at the front desk to check in and get your room card becomes history. This new and streamlined check-in experience offers guests better security while saving their valuable time and energy.

Smart Hotel Topology Diagram

Hotel Room Control Unit (RCU)

Module-Based Host

Traditional RCU

The basic configuration consists of 2-channel LEO dimming output, 12-channel 10A relay output, 1-channel 30A high-power relay output, 1 set of air conditioner fans output; reserved expansion card outputs, to meet the control requirements for dimming, lighting, curtains and air conditioning in the room; RS-485 port of the host can be connected to strong- and weak-current modules to accommodate scenarios with more circuits or switches.

Dimensions and Installation Method:

DIN35mm DIN rail mounting
Installation dimensions: L235 * W88 *H66 mm

OBT-HOTELKG0610

DC12V power supply 5-channel 10A relay switch, 1-channel 30A controlled socket independent CPU control, in-circuit programmable.
input: RS-485, dry contact: 6-channel (high-level)
Output: 6-channel (low-level indicator) high-performance anti-surge switch, DIN rail mounting
Dimensions: 158 * 88 * 59 mm

DLH Series

The basic configuration consists of 10-channel 10A relay output, which can be used for 2 sets of air conditioner fans or 10-channel lighting control. Hongfa 10A high-power surge relay is used to protect against surge currents generated in the strong-current circuits. 2-channel RS485 for bus communication.
Standard IO board with weak-current 16-channel input and 16-channel output.

Dimensions and Installation Method

DIN35mm DIN rail mounting
Installation dimensions: L235 * W88 *H66 mm

OBT-HOTEL-KG1010

DC 12V power supply
9-channel 10A relay switch, 1-channel 30A controlled socket independent CPU control, in-circuit programmable.
Input: RS-485, dry contact: 10-channel (high-level)
Output: 10-channel (low-level indicator)
High-performance anti-surge switch, DIN rail mounting
Dimensions: 158 * 88 * 59 mm

DLH Series

The basic configuration consists of 10-channel 10A relay output, which can be used for 2 sets of air conditioner fans or 10-channel lighting control. Hongfa 10A high-power surge relay is used to protect against surge currents generated in the strong-current circuits. 2-channel RS485 for bus communication.
Standard IO board with weak-current 16-channel input and 16-channel output.

Dimensions and Installation Method

DIN35mm DIN rail mounting
Installation dimensions: L235 * W88 *H66 mm

OBT-HOTEL-KG1510

DC 12V power supply
15-channel 10A relay switch independent CPU control, in-circuit programmable.
Input: RS485, dry contact: 6-channel (high-level)
Output: 6-channel (low-level indicator)
High-performance anti-surge switch, DIN rail mounting
Dimensions: 158 * 88 * 59 mm

OBT-DLH-S12.D2.T5.A30

Power input: AC 250V/50-60 Hz
Power output: DC 12V
2-channel LED dimming output, 12-channel 10A relay output, 1-channel 30A controlled socket, 1 set of air conditioner output
Network protocol: TCP/IP
Input: RS-485, dry contact (output and input using the same network cable): 24 channels
Dimensions: 235 * 88 * 66 mm, DIN rail mounting.

OBT-DLH-D4.V1-10

Power input: AC 250V/50-60 Hz
Power output: 4-channel DC0-10V dimming; power of each circuit is less than 100W
Signal interface: RS-485
Dimensions: 160 * 88 * 66 mm, DIN rail mounting.

Features of the modular-based system

- Modular design, standard DIN rail mounting, flexible system combinations, convenient installation and replacement of equipment, easy maintenance and high scalability;
- ARM 32-bit MCU is adopted for low power consumption and fast computing;
- Ultra-wide voltage range switch power supply;
- Pioneering dimming technology, totally flicker-free LED lights;
- Unique emergency power switching function;
- Two communication protocols available for selection;
- In-circuit programming for easy management;
- Smart control is realized by means of light-current control of heavy-current circuits, achieving safety and reliability;
- (a) Each modular device has a separate built-in CPU and ID;
- Support for Tablet and mobile phone control;
- Support for extension of WIFI interface, IR interface, MODBUS interface;
- We provide the optimal cost-effective solutions and products for budget hotels, express hotels, medium- and high-end hotels.

Touch Screen Panels

- Panel material:Acrylic/Tempered glass
- Operating temperature: -15℃ ~ 60 ℃
- Voltage:A/C 110V or 220V
- Power consumption(24h): <1W
- Service life: Touch unlimited use
- Relay contacts 100,000 times

Color Options:

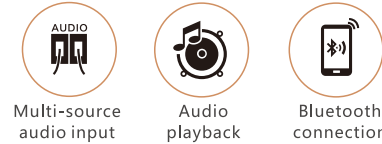

Glass Touch Screen Thermostat

- Explosion-proof materials for safe and secure mounting and dismounting;
- High touch sensitivity;
- Humidity monitoring display function;
- Fahrenheit/Celsius hassle-free switching;
- Highly accurate temperature display.

Glass Touch Screen for Background Music

Parameters and Specifications:

Dimensions: 86 * 86 mm Voltage: DC 12V
 Material: PVC/aluminum alloy
 Colors: Black, Champagne Gold, Grey, etc.; customizable
 Feature: Preconfigured with in-circuit programming for multiple-channel scenario control
 Switch type: large panel touch switch
 Status indication: LED status indication

Parameters and Specifications:

Dimensions: 86 * 86 mm Voltage: DC 12-24V
 Materials: zinc alloy border, stainless steel/aluminum alloy panel
 Colors: Black, Rose Gold, Champagne Gold, etc.; customizable
 Feature: Preconfigured with in-circuit programming for multiple-channel scenario control
 Switch type: microphonic sensor and tap
 Switch status alert: LED ring & key name dual display

ORBITA Door Signage

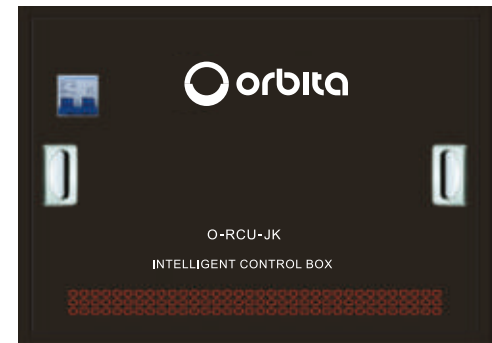

Personalized hotel sign

Customizable design

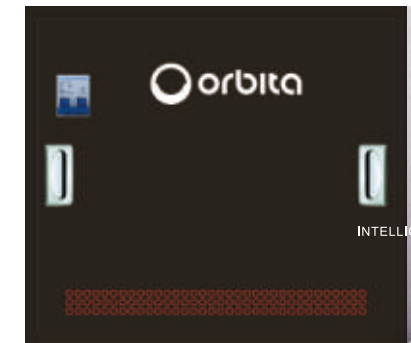

High grade display panel with backlit lighting

Electric Box

Dimensions:600x400x110MM

Dimensions:400x400x110MM

Music Player

Security alarm, whole-house doorbell, smart door lock
Video doorbell, smart home control, multi-room playback

- 2.8-inch capacitive touch screen;
- Bluetooth playback, with support for change of name and password in a bluetooth interface;
- Built-in TF card slot, with support for TF card up to 32GB;
- External linkage trigger for playback/AUX (choose one option);
- RS-485 protocol control;
- Time, date and alarm setting;
- Support for MP3, WMA, APE, FLAC, AAC and other music formats;
- Standard 86 mm bottom case, small-sized and well crafted, easy to install.

All-in-One Multimedia Panel

- Multimedia audio-visual connectors, for extending the ports of the LCD TV or other audio equipment in the hotel room to the desktop or wall;
- HDMI interface for HD transmission, reducing the frequency of TV channel switching by guests;
- AUDIO/PC interface, plug-and-play, with enhanced stability of signal transmission, which discourages frequent plugging and unplugging that could damage the port on the back of the TV;
- Ports available for iPads, MP4, digital cameras, digital camcorders, laptops, smartphones, game consoles and other ntertainment devices;
- allowing guests to better leverage the hotel's large-screen TV's visual display for a whole new level of audio-visual experience.

Hotel Locks

Features of ORBITA Smart Hotel Door Locks

- Support for integration with all hotel management software and support for Fidelio/Opera;
- Support for ORBITA wireless handheld devices, with data collection and download;
- Support for unlocking with proximity card, emergency mechanical key, mobile phone bluetooth, mobile phone app, etc.;
- Support for American standard 5-point lock body, with a combination of anti-insertion beveled latch bolt design and beveled latch bolt abnormality alarm design for double security, stability and reliability;
- All levels of access can be set through the door lock software, with large storage capacity for door opening records;
- Power-saving design with a battery life of up to 1 year;
- All-in-one card for all scenarios such as hotel rooms, elevators, parking lots, swimming pools, saunas, gymnasiums, schools, etc.;

Personalized Customization

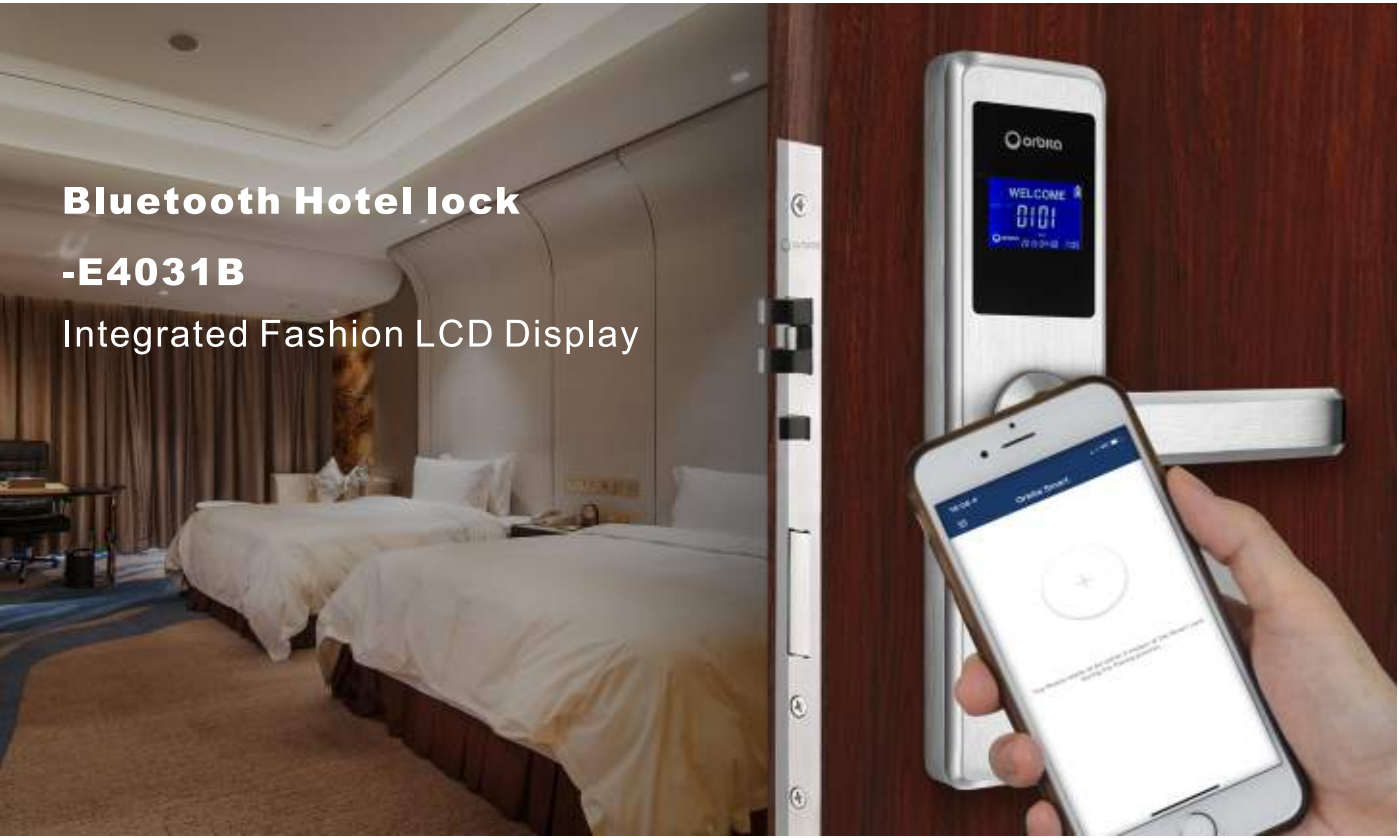

ORBITA smart hotel door locks can be customized to your personal needs, we have designed a variety of door handle looks to match the ORBITA hotel locks according to your preference.

Customization is also available for the door lock faceplates, keyhole covers, and side panels.

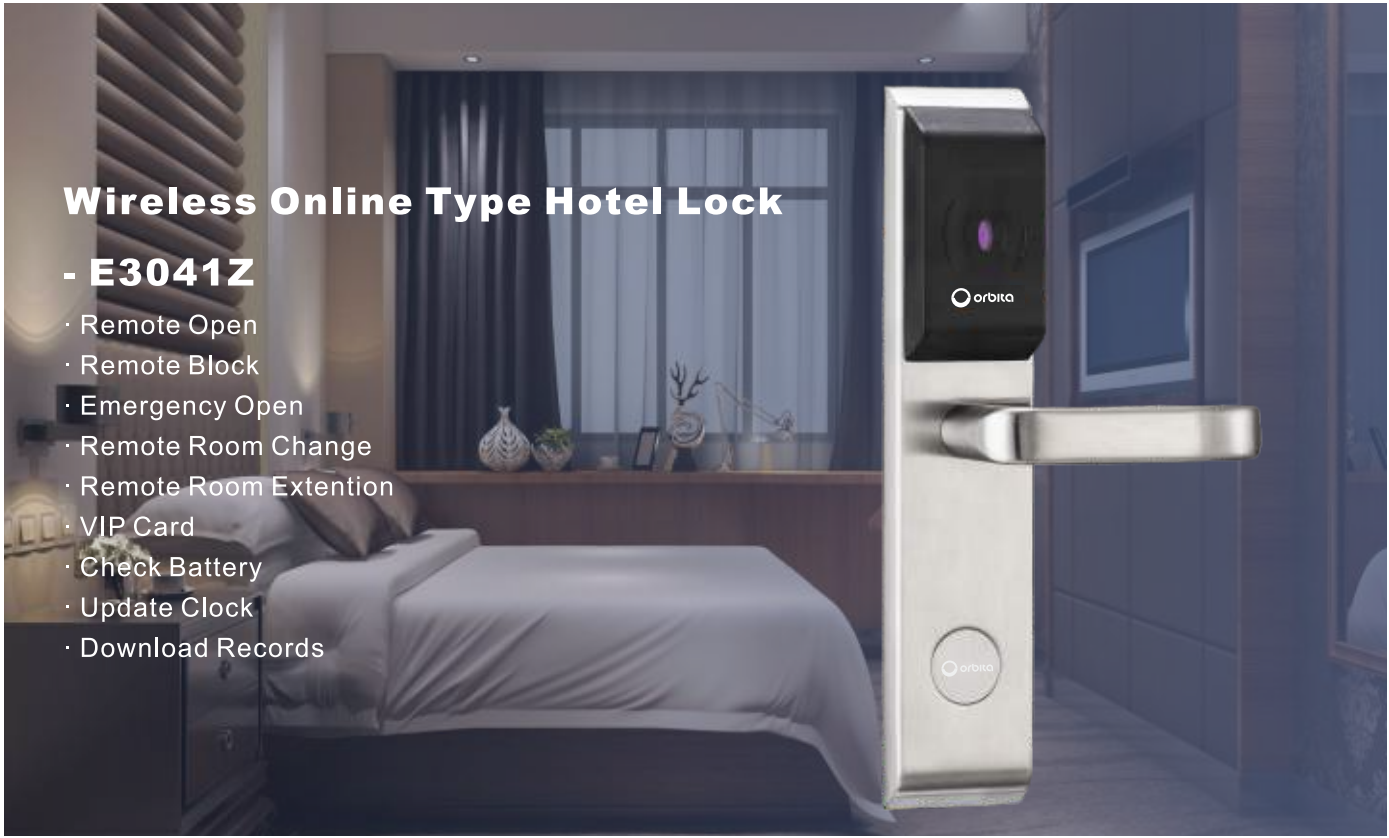

ORBITA Smart Hotel Lock Parameters

Lock body standards	Chinese standards, American standards, European standards		
Lock body material	304 grade stainless steel	Door opening records	1,680 entries, expandable to 3,260 entries
Card reading technology	RFID	Handheld device support	Support for ORBITA wireless handheld devices
Card type	MIFARE	Power supply	4 x AA / AAA batteries
Card anti-cloning	Yes	Low voltage alarm	An alarm is triggered when the voltage falls below 4.8V, when the door can still be opened about 100 times.
Flash memory technology	Yes	Working environment	Temperature: -20°C-60°C Humidity: 20%-90%
Certifications	CE, FCC, BHMA, IP54, fire safety certification
